Automation Brain Machine Vision Inspection Cameras

Pharmaceuticals:

- DataMatrix/GS1 verification
- Label & blister pack inspection
- DRAP serialization compliance & anti-counterfeit protection

FMCG & Food Packaging:

- Label and seal inspection
- Date-code verification
- Barcode readability

Textile Industry:

- Surface and fabric defect detection using line-scan cameras.

Electronics:

- PCB component placement and solder inspection.

AUTOMATION BRAIN

Expanding Vision Inspection Across Industry Sectors

Automotive & Engineering:
- Dimensional measurement
- Robotic part guidance

Logistics & Warehouses:
- OCR and barcode scanning on cartons and shipping boxes

Impact in Pakistan:
- Essential for DRAP serialization projects
- Supports industrial automation
- Ensures compliance, quality assurance, and traceability

Why Choose Automation Brain in Pakistan

- DRAP & GS1 serialization-ready systems
- Seamless integration with production lines
- AI & deep learning-based defect detection
- Local installation, calibration & technical support
- Proven performance in pharma & packaging industries

Start automating quality control today
